Vienna, 13.03.2014

On behalf of the Austrian trade union vida we wish to express our deepest sorrow for the passing away of brother Bob Crow.

His sudden death is a huge loss to the trade union and labour movement both in Great Britain and internationally. He was a powerful fighter for and defender of safe and affordable public transport.

We will remember him as a passionate voice for safety on the railways and successful union leader in terms of securing jobs and pay for his members.

Our thoughts are with his family, friends and colleagues in the RMT during this difficult time.
