

**To: Panhellenic Seamen's Federation**

**Brussels, 7/12/2021**

**Ref: Letter of solidarity to Panhellenic Seamen's Federation (PNO)**

Dear friends,

The European Transport Workers Federation stands in solidarity with Greek seafarers asking for meaningful social dialogue and respect.

We call on the concerned shipowners' Association to take its responsibility and engage in meaningful negotiations with PNO towards the immediate conclusion of national Collective Bargaining Agreements for 2020 and 2021 which have not been renewed.

The ETF calls on the Greek government to encourage and support social dialogue, and ensure decent working and living conditions for seafarers by restoring minimum manning levels, and ensuring protective social security coverage which precisely assumes its full significance and needs to be most implemented at a time of such crisis.

Together we unite and raise our voices for the protection of seafarers' rights.

In solidarity,

ETF team
