

EUROPEAN  
TRANSPORT  
WORKERS'  
FEDERATION

DAY AGAINST DRIVER FATIGUE JUNE 21

DRIVERS NEED

REST!

AND SAFE RATES

Do you recognise fatigue symptoms?  
**Scan here to check**

# YOU ARE NOT ALONE. A SIGNIFICANT PART OF EUROPEAN TRUCK DRIVERS FEEL THE SAME:

- 60%** of truck drivers and 66% of bus and coach drivers reported regularly driving while fatigued.
- 27%** of drivers surveyed in the ETF study admitted to almost having caused accidents due to fatigue.
- 33%** of truck drivers and a quarter (25%) of coach drivers have fallen asleep at the wheel.
- +50%** of both bus/coach (57%) and truck drivers (52%) felt the need to pull over when tired, but couldn't.

## What are Safe Rates?

Safe Rates are fair pay standards in road transport that:

- Allow drivers to take breaks and respect driving and work-time regulations
- Reduce fatigue and crashes, making our roads safer
- Apply to all drivers regardless of their nationality, gender, or if they are subcontracted or self-employed

Unions are winning Safe Rates agreements and legal systems that

- Include unions in setting and enforcing safe rates standards
- Require all industry actors to comply with these standards

## UNIONS ARE FIGHTING FOR

Quality Rest away from the vehicle every 3 weeks

Fair Pay and Better Conditions

Predictive Schedules

Better resting facilities
